Tim Evans
Chief Building Official

John Grimes
Fire Marshal

Issued: 0800 hrs on 27 April 2007

By order of the Office of Fire Marshal for the Town of Leland, an open burning ban is now in place. This means that no open burning is allowed within town limits except where specifically identified by this office.

Due to a lack of substantial rain in the area in recent weeks and dry windy conditions that are expected to continue into next week, this office feels that it is in the best interest of safety to issue this ban. This ban does not include open fires used for the purpose of cooking such as charcoal or propane grills. However, all citizens are urged to closely monitor any outdoor cooking.

The events involving open burning in the area means that all citizens should be vigilant in monitoring the town for fire. The recent fires burned an area equivalent to Magnolia Greens in just one day.

Any citizen wishing to report open burning or with questions can call the Leland Volunteer Fire/Rescue Department at 910-371-2727 or by calling 9-1-1.
