Long Range Planner

Six Themes. One Integrated Vision.

The Leland 2045 Comprehensive Plan organizes community priorities into six guiding themes. Implementation actions often advance multiple themes simultaneously, strengthening outcomes across the board.

HIGHLY VALUED AND PROTECTED NATURAL AND CULTURAL RESOURCES

Protect and enhance natural systems, cultural resources, and environmental resilience.

AN INCLUSIVE, SUPPORTED, HEALTHY, SAFE, AND EDUCATED COMMUNITY

Foster a community where all residents have access to opportunities that support well-being and success.

LIVABLE, DIVERSE, AND CONNECTED NEIGHBORHOODS THAT ACCOMMODATE GROWTH

Accommodate growth through complete neighborhoods that provide housing choice, connectivity, and quality of life.

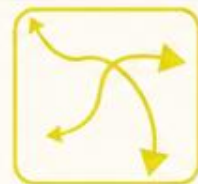

INFRASTRUCTURE THAT SUPPORTS COMMUNITY LIFE

Invest in resilient, efficient infrastructure and public services that support current and future needs.

A RESILIENT AND STABLE ECONOMY

Strengthen economic opportunity through targeted investment, innovation, and diverse employment options.

AN ACTIVE PARTICIPANT IN A COOPERATIVE REGION

Collaborate with regional partners to advance shared priorities and leverage collective strengths.

These themes are interconnected. Actions taken in one area often advance multiple themes, creating greater impact and a stronger, more resilient community.
