Amount of Trash & Recycling Collected

Trash: 334 pounds of trash
Recycling: 1 pounds of recycling
Other: Toilet, Scrap, and Sports Equipment

Creek/Waterway/Ditch Miles cleaned (ft/miles): .5 miles

Media/Social Media/Other Promotion Efforts: e-newsletter, Meet up, Instagram, Facebook, word of mouth, tabling events, and CFRW website, and KNHB social media.

Summary: We had a pretty good showing of ~15 volunteers that showed up to clean up the future site for Sturgeon Park. The group spread out and cleaned up both the east and west side of the road. Unfortunately we were unable to access the illegal dumping location in the marsh due to the overgrown vegetation. Hopefully next winter as the vegetation dies back we can work on that area again. Collectively we were able to 334lbs of litter and 1lb of recycling! We lucked out with the weather as it was one of the cooler days of the week. Everyone was extremely motivated and worked very hard.
